# Advanced Search Guide

Version 1.0.2 – April 2015

## ❖ Frontend Overview

---

A screenshot of the Magehit website's search results page. At the top right, there are links for "ACCOUNT" and "CART". Below these are navigation tabs: "ESSORIES", "HOME &amp; DECOR", "SALE", and "VIP". The main heading is "SEARCH RESULTS FOR 'SHIRT'". Below this, there are controls for "SORT BY: Relevance" (with a dropdown arrow), "VIEW AS:" (with grid and list icons), and "4 Item(s) SHOW: 1". Three product images are visible in a row. On the right side, a search dropdown menu is open, showing the search term "shirt" and a magnifying glass icon. It lists four search results with small images and text descriptions: "Core Striped Sport Shirt", "French Cuff Cotton Twill Oxford", "Plaid Cotton Shirt", and "Slim fit Dobby Oxford Shirt". Below the list, it says "Categories Shirts" and "View all result on shirt".

## ❖ Configuration

---

From the backend panel, the administrator can easily configure the Advanced Search extension at **System => Configuration => MAGEHIT=> Advanced Search** (or **Advanced Search => Configuration**)

✚ In the **Enable Advanced Search** field, select **Yes** to enable the module.

**Search box Configuration:**

- ✚ In the **Show category filter** field, select **Yes** to allow displaying Categories Select
- ✚ Minimal number of chars to show Result box: Allow configuring the minimum number characters for Ajax Search searching automatically
- ✚ The text in search input field: allow setting text to display the default on searching form
- ✚ Search input field Width: allow the width of searching text field
- ✚ Search input field Height: allow the height of searching text field
- ✚ Show Ajax loader icon: Select **Yes** to allow displaying Ajax loader icon

## Result Box Configuration

The screenshot displays the 'Result Box Configuration' interface. On the left, there is a list of configuration options with input fields and dropdown menus. On the right, a live search result for 'shirt' is shown. Red arrows indicate the mapping between the configuration options and the search results:

- Result box window height:** 300 (points to the height of the search results area).
- Result box window width:** 300 (points to the width of the search results area).
- Color code for the Keyword in result box:** #F00F00 (points to the red color used for the keyword 'shirt' in the product titles).
- Maximum number of products to show result box:** 10 (points to the three product cards displayed).
- Sort results by field:** Product name (points to the product names).
- Sort results order:** Ascending (points to the order of products).
- Show products short description:** Yes (points to the short descriptions under each product title).
- Number of short description chars to showshow:** 50 (points to the length of the short descriptions).
- Show products thumbnail:** Yes (points to the product thumbnails).
- Thumbnail height:** 50 (points to the height of the thumbnails).
- Thumbnail width:** 50 (points to the width of the thumbnails).
- Enabled header text in result box:** No (points to the absence of a header text).
- Header text value:** View all result on (points to the 'View all result on shirt' link).
- Enabled footer text in result box:** Yes (points to the presence of a footer text).
- Footer text value:** View all result on (points to the 'View all result on shirt' link).

- ✚ Result box window height: allow setting the height of result box
- ✚ Result box window width: allow setting the width of result box
- ✚ Color code for the Keyword in result box: allow setting font color of the keyword in result box
- ✚ Maximum number of products to show result box: allow setting the maximum number of products to display in the result box
- ✚ Sort results by field: allow sorting search results by some product attributes
- ✚ Sort results order: allow sorting the result order: ascending or descending
- ✚ Show products short description: allow Enabled/Disabled describing products in result box
- ✚ Number of short description chars to showshow: allow number of short description chars in result box
- ✚ Show products thumbnail: allow Enabled/Disabled products thumbnail
- ✚ Thumbnail height: allow setting the height of product thumbnail
- ✚ Thumbnail width: allow setting the width of product thumbnail
- ✚ Enabled header text in result box: allow Enabled/Disabled header text in result box
- ✚ Header text value: allow setting text to display on header in result box
- ✚ Enabled footer text in result box: allow Enabled/Disabled footer text in result box
- ✚ Footer text value: allow setting text to display on footer in result box
